

Urban transport in Tricity

Tricity's urban transport can be divided into three main transport organisers:

1. Public Transport Authority of Gdańsk (ZTM Gdańsk)
2. Public Transport Authority of Gdynia (ZKM Gdynia)
3. TriCity Rapid Urban Railway (SKM Trójmiasto)

Each of them operates on separate principles, operates independently of each other and has their own tickets which are not accepted in other companies (except for metropolitan tickets).

Getting around Gdańsk

Travelling across Gdansk is based mainly on the ZTM Gdansk bus and tram network. The vehicles are beige and red. The buses reach practically every part of the city of Gdansk and every part of Sopot. (Sopot does not have its own public transport.)

Tickets and prices

Tickets can be purchased from ticket vending machines located at the main bus and tram stops. You can pay in cash (coins and notes - 10 PLN and 20 PLN) or by credit card in the ticket machines. Tickets can also be purchased at kiosks and sales points of ZTM Gdańsk. Due to COVID-19 there is currently no possibility to buy tickets by the driver.

Detailed information on public transport in Gdańsk can be found on the ZTM Gdańsk website.

Getting around Gdynia and Sopot

Travelling across Gdynia is based mainly on the ZKM Gdynia bus and trolleybus networks. The vehicles are white and blue. The buses reach practically every part of the city of Gdynia and Sopot. (Sopot does not have its own public transport.)

Tickets and prices

Tickets may be purchased in kiosks and ZKM Gdynia points of sale. There is a possibility to purchase tickets directly from the driver, but only multi-pass tickets are available this way.

Detailed information on public transport in Gdynia and Sopot on the ZKM GDYNIA website.

Travelling between cities

When travelling between cities, it is best to choose the SKM Tricity trains. The trains stop in such cities as: Gdańsk, Sopot, Gdynia, Rumia, Reda, Wejherowo, Kartuzy, Kościerzyna, Żukowo.

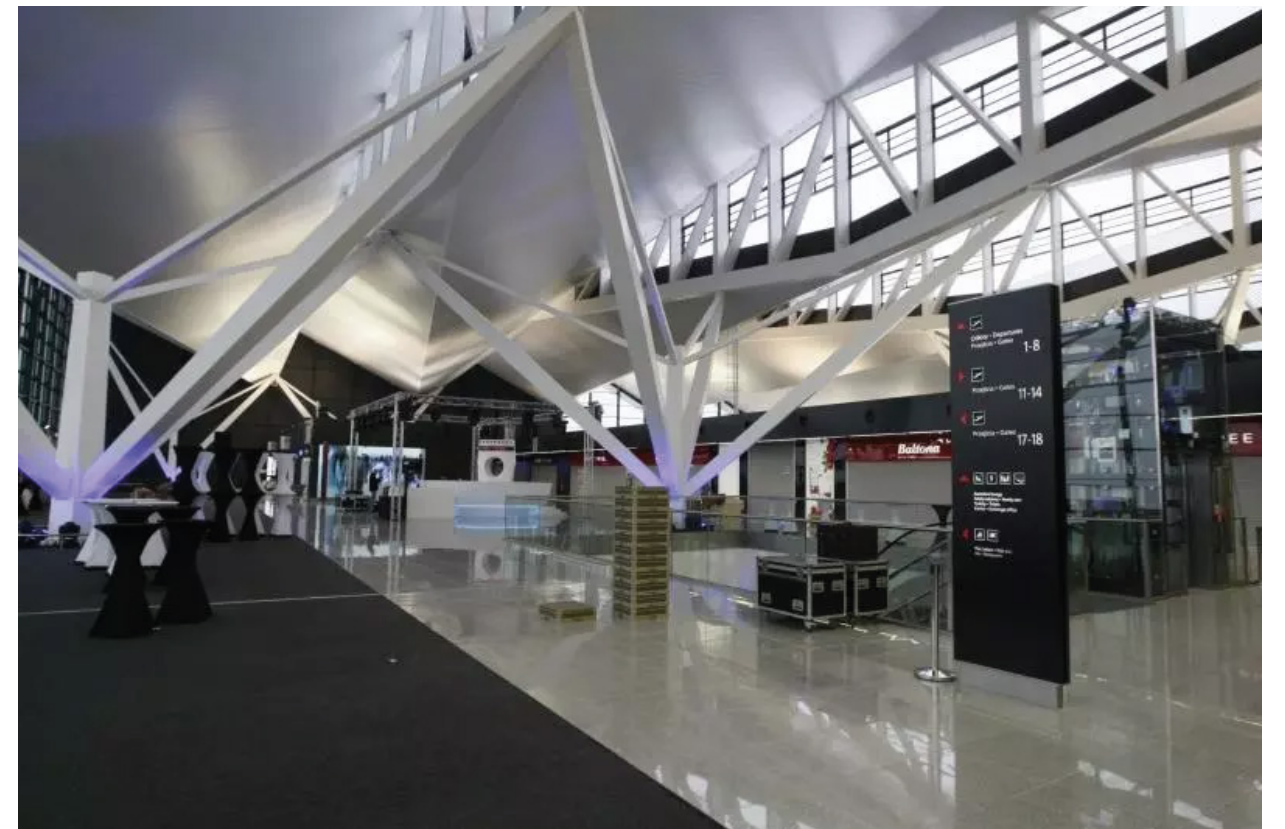

Ticket prices depend on the distance between stations. Tickets can be purchased at most stations in ticket counters or ticket vending machines. **Important: Tickets purchased at the ticket counter should be validated in the ticket validator located on the platform, while tickets purchased in the ticket machine are valid for the nearest train in the indicated relation without the need to be validated again.**

NOTE: The ZTM Gdańsk ticket machines also sell the SKM train tickets. In this case, the ticket must also be validated before entering the train.

Detailed information on the SKM Tricity can be found on the SKM Trójmiasto website.

TICKETS COVERING ALL MODES OF TRANSPORT

In the selected points of sale and in the main interchanges it is possible to purchase a so-called metropolitan ticket which is valid on all the modes of transport in the Tricity. Depending on the choice, ticket validity period is 24 or 72 hours, counting from the moment of validation.

Detailed information on the metropolitan tickets can be found on the MZKZG website.

TOURIST CARD

The Tourist Card is a package of discounts and free admissions to museums, cultural and entertainment facilities, as well as restaurants in order to best suit your needs.

The Tourist Cards packages: Explorer and Premium Explorer can be topped up with a metropolitan transportation ticket.
